

My BHS

Privacy Policy

Sunday, December 4, 2022

Welcome

When using the My BHS iOS app, Web app, or any other My BHS services, some of your information will be exchanged with our servers. This information is used to verify your identity and allow for greater platform integrity.

This privacy policy was written to help you understand the kind of information we gather, how it is used, and how long it's stored.

Information We Collect

There are two basic categories of information we collect:

- **Information you provide**
- **Information we get when you use our services**

Here's some more detail on these categories:

Information you Provide

When you sign-in to My BHS online or in the iOS app, you are allowing us to access basic information about your Google account. This includes, but is not limited to, your name, email address, profile photo, and google's unique identifier for your account.

With our iOS app, you may opt to use third-party services like Edficiency or Skyward. Your credentials, along with the data provided by these services are stored and fetched locally from your device, and are not reported to our servers in any form. Your third-party credentials are stored in an encrypted manner and can only be accessed by you locally in the App.

Information we get when you use our services

When you use our services, we may collect information about how and when you're using them. Our logs of such events can include: your user identifier, device identifier, the timestamp, and your IP address. We may also collect further information about your device, such as the platform type, operating system version, make/model (iOS Only), and user history for a device.

How We Use Information

We will use the provided name, email address, profile photo, and unique identifier from Google to create and maintain a profile for you on My BHS. We will use your name, email, and profile photo for personalization of your experience across our services. It can also be seen by the developer, Devin Baeten, in addition to certain BHS Staff members who are authorized to use the platform content management system.

We will use the information collected when you're using our services to determine which features are most popular in relation to different types of users and their devices. This information will also be used for identifying bugs, and improving the usefulness of our services over time.

How We Share Information

Your information is not sold or shared to third-parties. It can only be accessed by the developer, Devin Baeten, in addition to certain BHS Staff members who are authorized to use the platform content management system.

How Long We Keep Your Information

We will keep your profile generated from your Google account indefinitely. Information gathered when you use our services may also be stored indefinitely.

Control Over Your Information

You can contact devin@devinbaeten.com if you would like to have all information regarding you and your profile removed from our servers. You can also request a copy of the information we have about you if you're interested.
